Canine Reproduction and Neonatology Marthina L. Greer

Winner of Dog Writers Association of America's Dogwise Best Book Award

Canine Reproduction is a practical guide for veterinarians and an information source for breeders, kennel operators and others with a financial or humane interest in the breeding and maintenance of dogs.

The book focuses on the veterinarian's responsibilities for managing the problem pregnancy, insemination, collecting, storing and shipping semen, and all of the diseases and vaccination protocols that may involve the bitch and the stud dog. It is also a very practical guide for the non veterinarian breeder and kennel owner. The book provides step by step guidelines for husbandry and nutrition as they relate to the bitch and her puppies, an excellent and concise description of breeding genetics and the implications of that knowledge for long term preservation of the breed line, and it focuses squarely on the relationship that must exist between the veterinarian and breeder clients.
