Women, Class And Education (Women and Social Class) Jane Thompson

Making use of theory, reflection, narrativity and auto/biographical writing, Jane Thompson provides a comprehensive understanding of what learning really means, and what education can contribute to the struggles of working class women intent on changing the circumstances of their lives.

Organized into three parts, in the first section, Thompson draws on autobiographical experience to root theoretical understanding in the authority of personal knowledge. In part two, she illustrates how theoretical analysis can inform arguments about women's changing relationships to class, community, consciousness and education. In the final part, she provides detailed examples of educational work she has been involved in with working class women.

Containing vivid autobiographical narratives from women in England and Northern Ireland, *Women, Class and Education* explores compelling personal narratives that underline the importance of feminism as a source of political inspiration, social analysis and change.
