How to Make Your Own Patent Drawing and Save Thousands: Everything You Need to Know Explained Simply Jack Koller

The full cost of filing and receiving a patent can be anywhere from \$2,000 to \$10,000 depending on what you need to complete the process. But, if you have the right tools and the right knowledge of everything the government needs from you in a patent drawing, you can bypass much of what has plagued companies and inventors everywhere for decades.

This book has been designed to guide you in the process of developing and producing your own patent drawings in a manner that ensures you can skip over an entire overly expensive step in the process, designing your own drawings and moving that much closer to your patents. You will learn the basics of starting to draw and how to start using various perspectives to and drawing methods to capture real world objects. Learn perspective foreshortening and how to effectively use a pen, ruler, and other drawing instruments. Learn the basics of drawing with a computer and how to start using a camera to supplement your drawings. Learn what tools you need for your drawings and how to start tracing things to speed up the process. Learn how to draw from your imagination and how to draw to scale effectively. You will learn how to use graphical symbols and how to practice enough to get the process correct.

The best patent drawers in the industry have been interviewed and their advice is included in this guide to help you learn how they got started and what they recommend to effectively present your imagery to the Patent office. You will learn how to use CAD software, how to start drawing utility patents, and design patents. And most importantly, you will learn what the various standards of work are for patent drawings, from mediums and arrangement to lines, legends, scale, and copyright issues. If you are considering getting a patent and are not excited to pay anywhere between \$2,000 and \$10,000 for your patent drawings this book is for you.
