## **The Green Earth: Poems of Creation** Luci Shaw

The Green Earth is the newest offering of inspirational verse by best-selling poet Luci Shaw. Capturing the lush beauty of creation, these contemporary lyric poems rhapsodize the living things of nature and -- through them -- the profound grace of the Creator.

As these moving poems deftly convey, we can detect the fingerprints of God wherever we look. Beauty is gratuitous -- simply a gift to those with eyes to see. The idea that the Creator lavishes love on the rich diversity of his creation and has imbued human beings with the ability to appreciate his natural wonders points to a deeper aspect of God's being. Luci Shaw's poems pay close attention to the seasonal abundance of creation, tracing the blossoming of life through spring, summer, and autumn, aware all the while of the loving hand behind it all.

As Annie Dillard has elsewhere written of Shaw's theme, "We are here to abet creation and to witness it, to notice each thing so each thing gets noticed, and creation need not play to an empty house." Luci Shaw's poems convey this truth in a way that not only provides readers with fresh insights into the world around us but also turns the beauty of nature into a deeply devotional experience. The volume also includes an introduction in which Shaw discusses "the need to pay attention" to the natural world.

Bringing poetry of a high literary quality within reach of thoughtful readers, The Green Earth will open both the eyes and the mind to the grace of God that surrounds us all.
