Rhythms of Recovery: Trauma, Nature, and the Body Leslie E. Korn

Rhythm is one of the most important components of our survival and well-being. It governs the patterns of our sleep and respiration and is profoundly tied to our relationships with friends and family. But what happens when these rhythms are disrupted by traumatic events? Can balance be restored, and if so, how? What insights do eastern, natural, and modern western healing traditions have to offer, and how can practitioners put these lessons to use? Is it possible to do this in a way that's culturally sensitive, multidisciplinary, and grounded in research? Clients walk through the door with chronic physical and mental health problems as a result of traumatic events—how can clinicians make quick and skillful connection with their clients' needs and offer integrative mind/body methods they can rely upon? *Rhythms of Recovery* not only examines these questions, it also answers them, and provides clinicians with effective, time-tested tools for alleviating the destabilizing effects of traumatic events. For practitioners and students interested in integrating the insights of complementary/alternative medicine and 21st-century science, this deeply appealing book is an ideal guide.

Rhythms of Recovery provides 10 continuing education units through the Massachusetts Mental Health Counselor Education Home study program (exam required):

William Roger:

The publication untitled Rhythms of Recovery: Trauma, Nature, and the Body is the publication that recommended to you you just read. You can see the quality of the book content that will be shown to you. The language that author use to explained their way of doing something is easily to understand. The copy writer was did a lot of investigation when write the book, therefore the information that they share for you is absolutely accurate. You also could get the e-book of Rhythms of Recovery: Trauma, Nature, and the Body from the publisher to make you a lot more enjoy free time.

Carl Johnson:

As a university student exactly feel bored in order to reading. If their teacher questioned them to go to the library or to make summary for some publication, they are complained. Just little students that has reading's heart and soul or real their leisure activity. They just do what the educator want, like asked to go to the library. They go to presently there but nothing reading really. Any students feel that examining is not important, boring as well as can't see colorful images on there. Yeah, it is being complicated. Book is very important in your case. As we know that on this period of time, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore , this Rhythms of Recovery: Trauma, Nature, and the Body can make you truly feel more interested to read.
