## **Parents of Invention: The Development of Library Automation Systems in the Late 20th Century**

Christopher Brown-Syed

This fascinating tale of the rise and fall of mini-computer-based integrated library systems (ILS) offers both an explanation of the technical workings?still being used daily?and a historical investigation.

- Interviews with CEOs of libraries and computer companies, programmers, librarians, and library directors from Australia, Canada, the United Kingdom, and the United States
- References to published material and memoranda and recourse to actual programming code and output from systems of the period
- Photographs of computer machine rooms depicting mini-computer equipment described in the text
- A glossary of acronyms, abbreviations, and special terms used in library automation
- A bibliography of articles and monographs on historical and current aspects of library automation
