It's the most urgent and highly publicized issue facing America's family: how to teach our children to protect themselves in any situation.

Based on the author's successful education workshop, which has been in operation since 1969 and has educated more than 50,000 parents and children nationwide, *The Safe Child Book* gives parents effective and nonthreatening techniques for teaching children how to protect themselves without making them afraid.

Written by one of the few nationally recognized authorities on the subject, *The Safe Child Book* provides a comprehensive educational program covering a wide range of topics that concern parents today, including sexual abuse, abduction, leaving children alone, surfing the Internet, school safety, and choosing a daycare center or babysitter.
