This is a practical, hands-on book based around a case study website, which you will build in this easy-to-understand workshop by using CMS Made Simple. The case study grows chapter by chapter, from CMS installation to the finished website. It provides clear instructions and detailed screenshots, so you can see exactly what to do at each step of the build. When you have completed the case study, you will have the knowledge and confidence to build a website with rich functionality and individual design that is optimized for search engines and can be handed over to the customer. This book is perfect for newcomers as well as webmasters who are looking for an introduction to building powerful and professional websites with a content management system. Basic knowledge of HTML and CSS is the only requirement. The workshop covers all aspects of web publishing and is aimed for web designers, web developers, editors, and web managers.
