## **Fast Car Physics** Chuck Edmondson

Revving engines, smoking tires, and high speeds. Car racing enthusiasts and race drivers alike know the thrill of competition, the push to perform better, and the agony—and dangers—of bad decisions. But driving faster and better involves more than just high horsepower and tightly tuned engines. Physicist and amateur racer Chuck Edmondson thoroughly discusses the physics underlying car racing and explains just what's going on during any race, why, and how a driver can improve control and ultimately win.

The world of motorsports is rich with excitement and competition—and physics. Edmondson applies common mathematical theories to real-world racing situations to reveal the secrets behind successful fast driving. He explains such key concepts as how to tune your car and why it matters, how to calculate 0 to 60 mph times and quarter-mile times and why they are important, and where, when, why, and how to use kinematics in road racing. He wraps it up with insight into the impact and benefit of green technologies in racing. In each case, Edmondson's in-depth explanations and worked equations link the physics principles to qualitative racing advice.

From selecting shifting points to load transfer in car control and beyond, *Fast Car Physics* is the ideal source to consult before buckling up and cinching down the belts on your racing harness.

### **From reader reviews:**

#### **Janette Collins:**

Do you have favorite book? If you have, what is your favorite's book? Book is very important thing for us to understand everything in the world. Each reserve has different aim or goal; it means that book has different type. Some people truly feel enjoy to spend their the perfect time to read a book. They may be reading whatever they get because their hobby is actually reading a book. What about the person who don't like examining a book? Sometime, particular person feel need book whenever they found difficult problem or perhaps exercise. Well, probably you will want this Fast Car Physics.

#### **Desmond Goforth:**

As people who live in the particular modest era should be up-date about what going on or info even knowledge to make all of them keep up with the era which can be always change and progress. Some of you maybe can update themselves by examining books. It is a good choice for yourself but the problems coming to anyone is you don't know which you should start with. This Fast Car Physics is our recommendation so you keep up with the world. Why, since this book serves what you want and need in this era.

#### **Robert Dunham:**

With this era which is the greater individual or who has ability to do something more are more important than other. Do you want to become one of it? It is just simple strategy to have that. What you need to do is just spending your time little but quite enough to have a look at some books. Among the books in the top listing in your reading list will be Fast Car Physics. This book that is qualified as The Hungry Hills can get you closer in becoming precious person. By looking upward and review this e-book you can get many advantages.

#### **Francis Griffin:**

As a university student exactly feel bored in order to reading. If their teacher requested them to go to the library or even make summary for some publication, they are complained. Just small students that has reading's heart and soul or real their passion. They just do what the teacher want, like asked to the library. They go to presently there but nothing reading really. Any students feel that looking at is not important, boring in addition to can't see colorful photographs on there. Yeah, it is to get complicated. Book is very important in your case. As we know that on this period of time, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. Therefore , this Fast Car Physics can make you feel more interested to read.
