## Rheumatology: Evidence-Based Practice for Physiotherapists and Occupational Therapists

*Rheumatology* is an indispensable resource for physiotherapists, occupational therapists and other health professionals, offering practical approaches to the treatment and management of rheumatic musculoskeletal conditions. The text focuses on applying evidence-based understanding of these conditions to clinical context.

The specific disease chapters cover: incidence and prevalence of the condition; clinical presentation and diagnosis; red flags; clinical assessment; important first treatments, early intermediate and long term management; prognosis and long term outcomes. Supporting case histories of increasing complexity and study activities illustrate the clinical relevance of the treatment and management approaches.

- Multidisciplinary team approach
- Practical solutions to management of conditions supported by the latest research
- Case histories of increasing complexity consolidate understanding and develop clinical reasoning
- Highlighted boxes throughout contain study tasks and key messages
