The Art of Image Processing with Java Kenny A. Hunt

While most other image processing texts approach this subject from an engineering perspective, **The Art of Image Processing with Java** places image processing within the realm of both engineering and computer science students by emphasizing software design. Ideal for students studying computer science or software engineering, it clearly teaches them the fundamentals of image processing. Accompanied by rich illustrations that demonstrate the results of performing processing on well-known art pieces, the text builds an accessible mathematical foundation and includes extensive sample Java code. Each chapter provides exercises to help students master the material.
