Antitrust laws and trade regulation Julian O Von Kalinowski

With today's rapid changes in worldwide mass communication, it is critical that your library contain a title discussing in detail the legal implications of the new technology. All aspects of the regulation of cable, broadcasting, satellite and the Internet, including access, franchising, programming, compatibility, cross-ownership and privacy issues are discussed. New technologies, including High Definition Television (HDTV), Satellite Master Antenna Television (SMATV), Direct Broadcast Satellite (DBS) and Multipoint Distribution Service (MDS); and traditional legal issues adapted for new technologies, such as antitrust, securities and taxation are also covered. The price quoted for the work, which is updated twice annually, covers one year's worth of service.
