Delphi, although by far the most prestigious, was not the only oracular site dedicated to the god of prophecy. *The Oracles of Apollo in Asia Minor*, first published in 1985, presents the first unified account of these lesser-known religious establishments: at Didyma, Claros, Gryneion and Patara.

Many Greek communities in Asia Minor turned to Apollo for advice on conduct in their affairs, and it is at the oracles that we can discern the most explicit interaction between normal people and their traditional religion. Oracular interventions in history are examined, as is the organisation of the shrines themselves, and the methods of consultation in the mysterious darkened passages of Didyma or on the bright headland of Claros.

The Oracles of Apollo in Asia Minor is accessibly written, does not require a prior familiarity with Classical Greek, and will be of value to students of ancient religion, Greek culture and archaeology.
